CONSTRUCTION ADVISORY
2015 Pavement Rehabilitation

To: **Residents in the following locations:**
Park Crest Ct, Forever Ave, Bush Ct, Josilyn Ct, Juliet Ln
Darnell St, Halifax St, Castleton Rd, Braxton Rd, Butterfield Rd, Old Peterson Rd

Date: May 13, 2015

Weather permitting, pavement grinding on the streets listed above is scheduled to begin as early as **Monday, May 18**. Driveways adjacent to the grinding operations may be temporarily inaccessible while the operations move past.

After grinding and other preparatory work (2-3 days) is done, the street will be cleaned prior to applying a prime coat (tar-like material). The prime coat allows the resurfacing to bond completely with the original pavement.

Watch for "FRESH OIL" signs. These will typically be placed just outside the construction zone approximately 12-24 hours before the application of road oil. **Please read the reverse side of this letter for important hints for dealing with road oil.**

If you are temporarily out of your driveway, please note the following:

- During working hours, please park away from those areas where the contractor is working; this will expedite their operations, and also minimizes the chance for inadvertent damage to vehicles.

- Please do not park within 50 feet of an intersection corner or a stop sign, and at least 25 feet from any fire hydrant.

For any questions regarding the construction, please call the Engineering Division Office at (847) 918-2100, or Vincent Wroblewski (Resident Engineer with Christopher B. Burke Engineering, Ltd.) at (847) 417-4222 between 8:00 a.m. and 5:00 p.m. You can also email Vincent Wroblewski at vinny@cbbel.com. **The reverse side of this letter provides information on how to obtain construction updates electronically.**

For any problems which may develop after hours, please call the Police non-emergency number (847) 362-8310, and they will contact the proper personnel for follow-up. Thank you again for your cooperation.

As always, your patience and cooperation throughout this process is greatly appreciated.

Sincerely,

Fred Chung
Senior Project Engineer

IMPORTANT SUGGESTIONS FOR DEALING WITH ROAD OIL – PLEASE SAVE!

- Please ask your children to avoid playing in the street after the road oil is applied, and check the bottoms of their shoes before they come into the house.

- Park in garages or in your driveways as far from the street as possible. With windy weather, droplets of spray can be carried several feet.

- If you are driving and see a tank truck or men spraying oil on the street ahead of you, please consider detouring around the area.

- The fresh oil has a wet-looking, dark brown appearance. When the color becomes black with only a slight sheen, the oil has cured. This color change will usually occur within one hour during the hot summer weather, but may take up to 3 hours in cool weather, especially if the pavement is shaded.

- If you must drive through a freshly-oiled area, we strongly recommended that you reduce your speed to 5 to 10 m.p.h. When driving over oil which has cured, we suggest you not exceed 20 m.p.h.

- If you find that your tires have thrown oil onto the sides of your vehicle, any commercially available "bug and tar" remover should safely remove it. It is best to do this cleaning as soon as possible, the material gets more difficult to remove the longer it is left on.

HOW TO OBTAIN CONSTRUCTION UPDATES

A. CONSTRUCTION UPDATE WEBPAGE

In order to help keep you informed about the project, the Village of Libertyville will be posting construction updates on our website. We will post them as information becomes available.

To view the latest updates, please visit the website link www.libertyville.com and select the Department page for Public Works, then “Construction Projects.”

B. WEBSITE SUBSCRIPTION SERVICE – ALL PROJECTS

You may also subscribe to receive construction updates via email. To receive Village of Libertyville construction updates via email, perform the following steps:

1. Go to the Village of Libertyville homepage at: www.libertyville.com

2. From the menu of items on the left side of the screen, click the button “Notify Me.”

3. Follow the instructions on the page, enter your email address and select the “Construction Updates” box under “Notify Me” to receive Construction Updates from the Department of Public Works.

C. DIRECT PHONE NOTIFICATION

The Village of Libertyville may be using the Village’s phone notification system to deliver certain updates to residents on the road and water main construction this season. IMPORTANT NOTES:

1. If you have a land line telephone in your home or business (or have already enrolled), you will receive these updates without any action required from you.

2. If you do not have a land line telephone or want to subscribe a different number to the phone notification service, you may contact us to provide the phone number you wish to enroll AND your property address. Contact us at (847) 918-2100 or visit our “Construction Projects” webpage. A link is provided at the bottom of the Construction Projects webpage for Direct Phone Notification signup.
