

The Libertyville Fire Department's Fire Prevention Bureau administers an Annual Operational Permit program. Section 105 of the International Fire Code requires certain business types, processes and/or practices to have an operational permit. An Annual Operational Permit allows the applicant to conduct said practices within the Libertyville Fire Department's jurisdiction. These elements are in the form of "permit types" in this application.

Please complete the below information for your organization. Then, select the below permit type(s) applicable to your organization that will be displayed on your Annual Operational Permit. After selecting the applicable type(s), please accompany this application with a check in the amount of \$60 (total, regardless of the number of selected permit types) to cover the application fee and mail your envelope to:

Libertyville Fire Department

1551 N Milwaukee Ave

Libertyville, IL 60048

Assuming the applicant's organization's practices do not change that would result in the selected type(s) no longer being applicable, this permit must be renewed annually.

Thank you for your cooperation.

### **Step One: Organization Information**

Organization Name:

Organization Address:

City, State, ZIP Code:

General, Business Owner, or Finance Email Address:

**Provided email address is *not* tied to a non-business owner ("Yes" is required):**    **Yes**    **No**

Organization is located in the:                      Village of Libertyville

Libertyville Fire Protection District
